LINCOLN—AN AMERICAN STORY, the final night in Abraham Lincoln's life is told through the eyes of Dr. Charles Leale, the young medical student who was in attendance on the evening of that fateful performance at Ford's Theatre in Washington, D.C., and found himself at the center of American history as he unfolds his story of tending to Lincoln in his final hours. This extraordinary theatrical performance will be accompanied by a 45-piece symphony orchestra for this special engagement.
